V-Ray goes beyond rendering by modelling the effects of the light and the projected shadows to create a complete picture of what your project would look like with a specific lighting setup. Simply modeling and rendering is just the start! When you get V-Ray Professional, you get to mold your world and turn it into a work of art. Check out some of the things you can do with V-Ray Professional that you can't get with traditional rendering software. Add physics to light. Get realistic reflections. Add moving clouds, clouds, particles and smoke. Use glass. Add texture and lights to glass. Take your lights with you. Sculpt and animate real-time surfaces. Approximate geometry on the fly. Create and apply organic & rigid dynamic proxies for quick & easy high-quality retopology of any shape. Key Features Go beyond rendering by modelling the effects of the light Make your environment look real with realistic reflections, shadows, and materials Instant & realistic reflections and casting shadows with realistic models of surfaces Create realistic shadows with soft or hard shadows Add dynamic sky lights and snow to the scene Quickly rig any surface to create dynamic proxies for fast and easy retopology Create game-ready assets to add interactivity and realism to your game-play Zimbabwe: Five Days to go For the 2015 Presidential Election 12 Feb 2015 WITH just five days left to go before the presidential election, the opposition Movement for Democratic Change Alliance's (MDC-Alliance) youth wing on Sunday claimed they have proof President Robert Mugabe is being forced to run for re-election due to alleged irregularities in his party Zanu-PF's selection of its candidates. Senior official for the MDC-Alliance told The Herald that the registration of new independent candidates for the election had been suspended since the 28 December 2014 Constitutional Court ruling that declared the 2012 election results and all regulations and laws related to the elections null and void. "It's a constitutional violation and a breach of
