Trying to get Win7 back up. But keep crashing: So.. went to Reimage Plus repair and it didnt pick up any errors.. guess my issue is not a problem with the program: Thanks! A: No, you're not wrong. You might still have a problem.

Reimage Plus has an "A" button for automation, but it's not activated by default. To activate it, choose the "A" button on the option menu from the Scanner tab. Click "Scan" and select "Reimage" on the list of executed scans. Do not use the other choices here. When finished, you can now go back to the "Home" and you should get a message saying the Reimage Plus home page has been repaired and asking you to restart the computer. You should get a clean scan without error messages. If you experience any problems, use the option to restore to a previous saved version. If you want to go back to a saved version, you can select one from the "Versions" tab. Brian Ortega is the only person I would do business with due to his experience with children's programming. I would feel very comfortable letting him work with my kid(s). He is committed to the kids and watching them grow up is fun to watch. It is a great job. When it comes to movies, movies, or computer gaming, Brian is up for nearly any task. He can log in time, review and edit a large amount of material, write up movie reviews, and plan a whole event. He may know the plot and theme of a movie and can explain them to you. He even has a car with a GPS in it. 3. 3 of 3 people found this review helpful Alexandra Rosso 6/21/14 Overall Performance Story "Somewhat overrated" his energy is very low and out of sync with the characters. The writing is too dramatic for children, in most episodes he makes a few seconds of jokes and then he's done. If I listen to Brian for 10 minutes I have been exposed to 10 minutes of filler and jokes. Over all the children music, games and stories was pretty good. 0 of 0 people found this
